

KCM Kentucky Center for Mathematics

2008/2009 New MIT Training

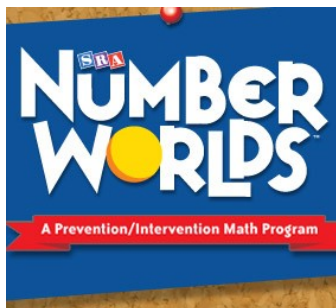

- KCM will provide training free of charge for one program, per teacher, per school. Schools should add the appropriate training fee (\$4400 Math Recovery/ \$1400 Number Worlds) to their proposed budget if they plan to implement a second program, to hire a second part-time MIT, or to hire an MIT to replace one who was already trained.
- The tentative location of all training events, unless otherwise specified, is Newport on the Levee in Northern Kentucky.
- All new MITs are expected to participate in weekly online meetings.

Math Recovery

- **5 days, July 14—18, 2008**
- **3 days, September 2008 TBA**
- **2 days, November 2008 TBA**
- **Coaching and Regional Collegial Team Meetings in October 2008, January 2009, and March 2009.**

Number Worlds

- **5 days in July 2008, TBA (2 days of KCM/NW training within your region and 3 days of Math Solutions in Northern Kentucky)**
- **3 days in November 2008 (Math Solutions)**
- **2 days in February 2009 (The Landscape of Intervention with Catherine Fosnot)**

Additional Attendance Requirements of MITs, exact dates TBA:
 Kentucky Council of Teachers of Mathematics—Fall 2008
 Kentucky Teaching and Learning Conference—March 2009
