

AdMIT Event

During the AdMIT Event, administrators and mathematics intervention teachers (MITs) will have an opportunity to focus on maximizing the benefits of the Mathematics Achievement Fund (MAF) intervention program. What began as a very successful grass-roots initiative for helping struggling primary grades students is evolving into a variety of powerful professional development models for building learning communities. Find out what other schools are doing to facilitate the transfer of MIT passion and knowledge to positively impact all primary grades teachers and students, learn more about diagnosing and addressing student need, and engage in problem solving regarding your school-wide mathematics program.

MITs –
powerful
catalysts for
systemic
change

Administrators and MITs will:

- Receive MAF and KCM updates
- Focus on student numeracy development
- Engage in student video analysis
- Review the new KCM Progress Points document and consider how it might be used in their schools
- Collaborate on the possibility of growing the MIT as a school-based leader

An MIT and one or more administrators from each MAF grant school should register to attend one session. Exact locations will be post on the [KCM Calendar](#) as they become available.

June 9, 2009—London

June 17, 2009—Bowling Green

July 1, 2009—Morehead

July 15, 2009—Louisville

August 19, 2009—Lebanon

September 9, 2009—Newport

September 23, 2009—Lexington

September 24, 2009—Grand Rivers

Time: 8:30 a.m. to 3:30 p.m., local time (lunch—11:30 to 12:30 on your own)
