

## **Foundations 8**

KCM is proud to partner with the Kentucky Department of Education to offer middle school educators impactful professional learning experiences (PLEs). For teachers of 8th grade and accelerated 7th grade, the KCM, with grant funding from KDE, plans to provide a free four-day PLE in 2016-17. This experience allows middle school educators to gain a greater understanding of how to support students in developing algebraic and functional reasoning. This PLE will focus on standards in the Expressions & Equations (EE) and Functions (F) strands.

Participants should be Kentucky 7th or 8th grade educators and are expected to attend all 4 days of the professional learning experience. Teachers who work with 9th grade students are welcome, but the content focus will be on 8<sup>th</sup> grade standards. Coaches and instructional supervisors are eligible to attend only if they do so along with a classroom teacher. Coaches/instructional supervisors are also expected to attend all 4 days of the PLE.

**Cost:** \$0.00

**Participants:** 7th & 8th Grade Educators (9th grade educators are welcome, but content focus will be 7th & 8th)

### **Locations:**
