

Kentucky Numeracy Project Intensive Course

Resources and professional development for building strong numeracy foundations

Each participant will receive...

- 3 introductory in-person training days, involving live student interviews, dedicated to administration and analyses of diagnostic assessments for beginning numeracy topics in Add+Vantage MR, including:
 - Forward and backward number words
 - Numeral identification and sequencing numerals
 - Structuring number
 - Counting objects and addition and subtraction
- 7 follow-up in-person training days dedicated to:
 - Collegial student-centered problem solving
 - Review of strategies for analyzing and using diagnostic evidence as an aid in dynamic instructional decision-making
 - Additional numeracy strands of multiplication and division and tens and ones
 - Effective use of the Kentucky Numeracy Project Intervention Guide
- Ongoing, online support meetings
- 2 kits with materials and literature (2 books, handbooks, etc.) for diagnostic assessment and instructional intervention activities
- Printables from the Kentucky Numeracy Project Intervention Guide
- Free registration for *pre*-conference events at state conferences, offered exclusively to the KCM Community Members
- Upon completion, a certificate of award with the designation of KCM Intervention Specialist

Intended Audience: Collaborative resource teachers, intervention teachers and/or regular classroom teachers of students in grades K to 3 or those who work with struggling students in grades K to 5.

Locations & Dates:

- Central Kentucky Special Education Cooperative, beginning, July 19-21, 2011 (CKSEC)
