

Math Recovery Intervention Specialist (MRIS) Course

Math Recovery is a distinctive program for teacher growth that deepens teacher understanding of student numeracy development and builds technical skills for designing differentiated, cutting-edge instruction informed by dynamic diagnostic and formative assessments. Teachers learn to use frameworks for learning and instruction and they benefit from participation in a teacher-centered professional learning community with very high collegial standards for ongoing reflection and rigorous study built around intensive instructional problem solving.

Minimum Requirements

- Full participation at 4 days of summer training, 3 days of training in September/October and 3 days of training in November/December
- Full participation in weekly online Centra meetings
- Full participation in quarterly in-person collegial team meetings
- 100 hours of videotaped one-on-one first grade instruction
- 100 hours of video analysis, reflection, and planning
- Professional journaling
- 3 coaching visits made by the leader to the participant's classroom
- Completion of an assessment project
- Completion of a case study

Choose from one of three part a) course offerings (Building locations will be posted on the [KCM Calendar](#) as they become available):
