

Individual Assessment, Improved Instruction

SNAP™ is a two-day, research-based, professional development opportunity that allows teachers to grow in pedagogical content knowledge of number while using an individualized assessment tool for determining student need in the various aspects of number. Teachers compile individual student data to establish a class profile which typically reveals a range of readiness and can be used to inform instruction within the core math program.

Each participant receives:

- An assessment kit that includes the materials to conduct the assessment,
- The SNAP™ Teacher Handbook with black line masters,
- 25 SNAP™ Assessment Folders (additional folders are \$1 per student),
- A canvas carrying case screened with the SNAP™ logo.

Target audience: Kindergarten and first grade teachers with no prior *Math Recovery* experience, limit of 20

Cost: \$150 includes kit and training fee (regular price \$295), payable to the *Kentucky Center for Mathematics*. Trained SNAP™ Facilitators may observe for free, but should register online.

Dates: July 30 & 31, 2008

Time: 9:00 a.m. to 4:00 p.m.

Location/Housing: The Brown Hotel, Louisville. Group rate \$135 with free coupons for breakfast buffet both days. Group number should be available here after June 30, 2008. <http://www.brownhotel.com/>

Presenter: Pam Tabor, Maryland

Meeting Location: The Brown Hotel. Offsite (TBA) 7/31 a.m. to videotape student interviews.

Recommended/optional video equipment: <http://kymath.org/intervention/resources>

Contact: Alice Gabbard, Kentucky Center for Mathematics (gabbardal@nku.edu)
