Math Recovery Intervention Specialist Course

The Math Recovery Intervention Specialist (MRIS) Course is a distinctive program for teacher growth that deepens teacher understanding of student numeracy development and builds technical skills for designing differentiated, cutting-edge instruction informed by dynamic diagnostic and formative assessments. Teachers learn to use frameworks for learning and instruction and they benefit from participation in a teacher-centered professional learning community with very high collegial standards for ongoing reflection and rigorous study built around intensive instructional problem solving.

Course Requirements

- Full participation at 4 days of summer training, 3 days of training in September/October and 3 days of training in November/December
